

FRAME DESIGN STUDIO ARNE QUINZE

Part of moving forward is looking backward. FRAME is a 21st-century remake of the old-fashioned armchair. Familiar and fascinating at the same time, FRAME combines a stationary tubular-metal frame with QM FOAM™ or upholstered in leather or fabric all for matchless comfort. Its fresh, distinctive look complements any contemporary setting, while blending with equal ease into a more classic environment. FRAME includes one- and two-seater settees with and without armrests.

FRAME is also available upholstered in leather and fabric.

Custom color or sizes are available upon request.
